PACE is billed with property taxes; escrow may change. At sale or refinance, a payoff may be required.

APR ranges shown represent approximately 90% of all PACE financing, though it is possible for the APR to go both lower or higher based on multiple variables, including, but not limited to, the time to complete a project in relation to when property tax bills are prepared. APRs include applicable finance charges and vary by term, fees, timing of the first tax assessment, and calendar assumptions. The APR ranges shown assume a 365-day year; if your assessment period differs, your APR and payment amounts will vary. Contact Home Run Financing for an APR quote specific to your project and location.
